Refer to: Sangamon County - No. 16782516 - Springfield/Buerkett #2

September 22, 1978

Mr. Merle Buerkett  
Rural Route #2  
Koke Mill Lane  
Springfield, Illinois 62706

Dear Mr. Buerkett:

Your solid waste disposal facility located southeast of Springfield was inspected on September 8, 1978, by Les Frankland and Amy Loiselle, representing this Agency.

... Leachate was ponded on the southeast corner of the site and there was evidence of past leachate flows. You should take immediate action to correct this violation.

... The southwestern corner and southern portion(s) of your site was in need of additional cover material in order to comply with the aforementioned six inch cover requirement(s).

... Daily cover is not being provided adequately on the western and southwestern portions of the fill face. All solid waste received daily must be covered with a minimum of six (6) inches of compacted suitable natural earthen material by the end of that day's operation.

It is suggested that you take immediate steps to resolve the conditions described above.

Sincerely,

Monte M. Frankark, Acting Regional Manager  
Land Field Operations Section  
Division of Land/Noise Pollution Control
